10. BRIEF SUMMARY OF SIGHTING  Reddish colored object observed several degrees above the horizon in the west. First impression was that object was Mars. A few minutes later the object moved higher in the sky and a/c in view of opinion of both became bigger reaching about 1/4 apparent size of moon. Object passed over car. Mother of boy reporting argued that obj was delta wing a/c. However, obj moved very slowly, no sound, appeared as two delta wings w/no fusela e. low Altitude.		
11. COMMENTS  Duration not reported. Inconsistencies in letter and request for additional info sent to witness. No reply. Case carried as witnesses.		

Dear Sirs:

I would like to report a sighting of an unidentified flying object. I first noticed this object at 6:05 P.M. Wednesday, February 13<sup>th</sup>. It was several degrees above the horizon and appeared a reddish color. At first I thought it was Mars but later (a few minutes later) I noticed it had moved higher in the sky. The object then appeared to become bigger, that is, its light did. It grew to a giant size, almost about a quarter of the moon's size. Then it got dimmer and seemed to stop in the sky.

My mother was coming to pick me up at Old York Road Temple Beth Am after Hebrew school. I called her attention to the object which by this time had become brighter and had started moving over the synagogue grounds. We both watched the object pass over the eav-

The both agree that the object  
was a delta-wing craft and  
was moving slowly. They  
noticed this in the car  
~~and~~ looking out of the window  
while it was hutsicle.  
observing it. It appeared to  
me to have little or no  
fuselage, but was rather  
just two delta wings.

The object started in the West and proceeded Eastward until it had passed overhead. Its light then appeared to become faint to see. We hadn't noticed a sound from the craft. It was at a low altitude.

I called an officer at  
McGowen A. F. Base and  
asked if they had any detrac-  
turing ~~the~~ planes at the base.  
He said they had no such  
plane there that could fly  
as slow as described.

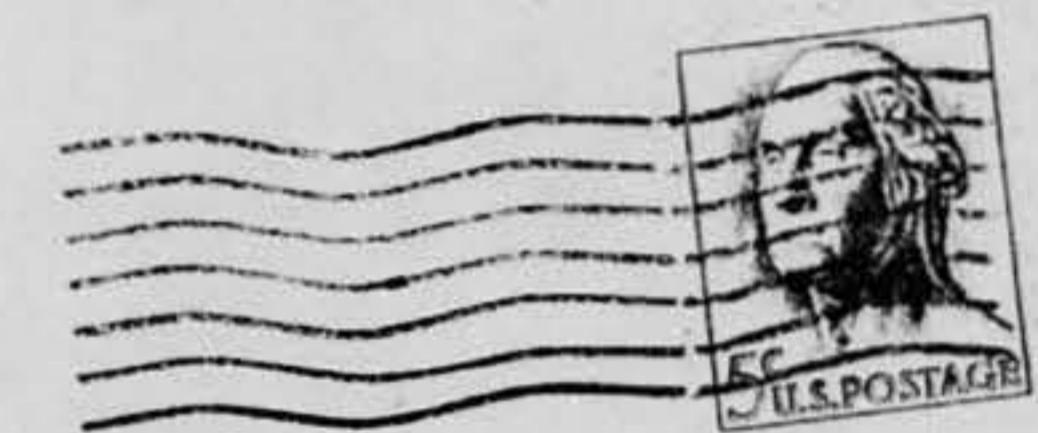

Sincerely,

Aug. 13<sup>th</sup>

Kydal, Pa.
